

## About Us:

Estex is a trusted leader in industrial sewn products, delivering innovative solutions in load securement, PPE, and tool management. With a proud legacy of craftsmanship and reliability, we also serve the aerospace, government/military, and sporting goods industries—helping professionals across multiple markets work safer, smarter, and with confidence.

Since 1900, Estex has been at the forefront of the electric utility industry. For 125 years, we've adapted to the evolving needs of modern markets while consistently delivering innovative solutions. As a proud manufacturer and supplier of high-quality sewn products, we honor our long-standing tradition of excellence and remain committed to carrying our legacy of innovation and service into the future.

## Bucket Lantern

Made in the USA, the Bucket Lantern is designed to provide exceptional visibility for lineman and utility workers. With patent-pending technology, this high-powered LED lighting system secures around your bucket, ensuring reliable illumination in any condition.

- Fits Any Milwaukee 18V Battery (Battery Not Included)

**1S-BL-1** 1 Man Total Length 125"L  
**1S-BL-2** 2 Man Total Length 154"L

## Service Block System with Progress Capture

Kit Includes:  
 1/2" Red Core Rope with 2 Blocks, Prusik

Red Core double braid polyester rope has increased abrasion resistance and durability. The blue and silver jacket not only adds aesthetic appeal but also provides additional protection against abrasion and wear. The red core adds an extra layer of safety and stability, as well as enhances the rope's overall performance by adding another way to identify flaws in the rope through the contrasting colors. Average tensile strength 7,500 lbs.
